

I am 100% opposed to the requirement of recording my daily programming. I have three stations in a small market, and don't have the funding or the manpower to perform this enormous task. I have never needed any recorded documentation of my programming for any reason in my 20 yrs. of broadcasting. I'm sure there are some that need to be punished, by this type of REGULATION, and the FCC probably already knows who they are. PLEASE DON'T PUNISH ME FOR THEIR WRONG DOING!!!!
